#### Anniversary celebration event

Gifu University had the 65th anniversary of its foundation on Sunday, June 1, 2014. A celebration event was held at University Hall on the following day, Monday, June 2, and about 150 people including Gifu University students, graduates, and faculty and staff members were present.

At the beginning of the event, Gifu University President Hisataka Moriwaki spoke about the future vision and internationalization at the University that can be realized in the environment where Students, Staff and University are gathering and growing.

Following the conferment of the title of professor emeritus, outstanding employee and student awards, and presentation of the letter of appreciation, all participants sang a Gifu University song "Warera tabou no haru ni shite" (「我等多望の春にして」) together. At the end of the event, Mr. Kaoru Yamamoto, Manager of Department of Prefectural Land Management, gave a lecture titled "Land Management in Gifu Prefecture" for the 41<sup>st</sup> Gifu University Forum.

Mr. Yamamoto spoke about the current status of infrastructure improvement propelling a growth and employment strategy, disaster prevention which is necessary for safety and security of land management, and human resources development and assistance that support infrastructure. In the lecture, he also mentioned how Gifu University involves in their land management plan. We had a Q&A session after the lecture, and it was a great opportunity for participants to get to know better about efforts for land management rooted in the region.

President Moriwaki speaks at the event

Mr. Yamamoto gives a lecture

#### Conferment of the Title of Professor Emeritus

President Moriwaki conferred the title upon the following 11 professors who became Professor Emeritus of Gifu University, effective April 1, 2014.

| Faculty/Department             | Name              |
|--------------------------------|-------------------|
| President of Gifu University   | Hideki Mori       |
| Faculty of Education           | Tsukiko Kobayashi |
| Faculty of Education           | Masakazu Miyamoto |
| Faculty of Regional Studies    | Nobuaki Arimoto   |
| Faculty of Regional Studies    | Shiro Kasuya      |
| Faculty of Regional Studies    | Yukio Kuchikura   |
| Faculty of Regional Studies    | Masao Tsuda       |
| Graduate School of Medicine    | Tatsuo Ishizuka   |
| Graduate School of Engineering | Kuniharu Kishida  |
| Graduate School of Engineering | Shogo Sakai       |
| Graduate School of Engineering | Toshio Hattori    |

#### **Outstanding Employee Award**

The following 4 employees who significantly contributed to educational and research activities at Gifu University received certificates of commendation and gifts.

| Professor of Faculty of Regional Studies            | Akiro Takeuchi |
|---|----------------|
| Professor of Faculty of Engineering                 | Yukio Kitade   |
| Professor of Faculty of Applied Biological Sciences | Hirokazu Fukui |
| Professor of Medical Education Development Center   | Masayuki Niwa  |

#### **Outstanding Student Award**

The following 20 students who achieved excellent results on their study in each faculty last year received certificates of commendation and gifts.

Social Studies Education Course, Faculty of Education (4th year)Ms. Emi OkuboSocial Studies Education Course, Faculty of Education (4th year)Ms. Shoko TanakaHome Economics Education Course, Faculty of Education (4th year)Ms.Sayuri NishiokaHome Economics Education Course, Faculty of Education (4th year)Ms.

Materials Science and Technology Division, Graduate School of Engineering (2<sup>nd</sup> year) Mr. Takahiro Niwa Environmental and Renewable Energy Systems Division, Graduate School of Engineering (1<sup>st</sup> year) Mr. Hiroshi Nagasaka

#### Presentation of the Letter of Appreciation

The following 1 association and 3 people were commended for making considerable contributions on Gifu University projects, and received the letters of appreciation and gifts.

The following 3 people made private donations and contributed to educational and research development at Gifu University.

Mr. Tadayoshi Ido Mr. Kenzo Tamaki Mr. Haruki Fujii

The following association contributed to the improvement of educational and research environment at Gifu University.

Representatives of Gifu University Association of Simulated Patient Ms. Hiroe Oya Ms. Masayo Ishikawa Ms. Hideko Ishihara A special lecture by Ms. Makiko Tanaka, a former Lower House member

As part of the Care Instruction Theory and Special Needs Education course for students of faculty of education, a special lecture was given by Ms. Makiko Tanana who is a former Lower House member and held prominent positions such as the Minister of Education, Culture, Sports, Science and Technology, the Minister of Foreign Affairs, and Director-General of the Science and Technology Agency, on Wednesday, June 4. Care experience is required for students who study for an elementary and junior high school teaching certificate as it was enshrined into law after the proposal from Ms. Tanaka and other assembly members. The purpose of this special lecture is to reacknowledge the meaning and significance of care experience.

Participating students reaffirmed responsibilities of people living in an aging society with fewer children after listening to a story based on Ms. Tanaka's own experience of care for her father, a former Prime Minister Kakuei Tanaka. We had responses to the lecture from students such as "All university students, not only students of the faculty of Education, should learn about care." "I see the point in doing care experience." and "I would like to learn to feel someone's pain and respect human dignity through care experience." Some students who were inspired by Ms. Tanaka's lecture also commented, "Her words 'we must make use of limited time' stuck out in my mind", "As time is limited, I would like to have student life here without any regret." The hall was full of students who were drawn to her talk, and Ms. Tanaka's fascinating lecture which sometimes involved audience participation was a great success.

The faculty of Education invites lecturers for the Care Instruction Theory and Special Needs Education course and gives lectures about the handicapped and care aiming for fostering students' ability to respect individual's dignity and independence and to focus on community bond.

Ms. Tanaka talks at Gifu University

Summer school for 2014 has started

Gifu University 2014 Summer School started on Wednesday, June 4. Gifu University offers eight-week and four-week courses to sister university students. This year, 21 students participated in summer school program including 17 students from Lund University (Sweden) for an eight-week course, and 4 students from Mokpo National University (South Korea) for four-week course started on Wednesday, June 25.

This year marks the 27th year of our summer school program. In addition to Japanese language class, participating students went on excursions to Mino City (wadaiko experience & kimono wearing), Toki City (pottery class), and Gujo City. In Gujo City, students have a homestay for three nights.

Additionally, the program is full of various events including Noh & Kyogen workshop, sumo watching, and overnight trip to Shinshu. Participating students live with summer school tutors in an off-campus facility for two months, and during their stay in Japan, students and tutors build a strong bond through having a meal together, studying together and sharing their lives together. A number of Japanese student tutors decided to go abroad and study at overseas universities after their summer school tutoring experience.

Gifu University summer school program has been selected as a scholarship program supported by Japan Student Services Organization (JASSO) since 2012 (Scholarship for short-term stay program for FY 2012, and scholarship for short-term study in Japan for FY 2013 and 2014).

#### General meeting of Gifu Regional Council for Foreign Student Exchange Promotion

A general meeting of Gifu Regional Council for Foreign Student Exchange Promotion was held at a main conference room in Gifu University administration building on Tuesday, June 10. Gifu University is in charge of a secretariat of the council. Gifu Regional Council for Foreign Student Exchange Promotion was established in February, 1990 aiming at accepting international students smoothly and promoting exchange activities. The council consists of universities, local governments, business associations, and international exchange organizations in Gifu Prefecture, and Gifu University President has been a chairman of the council since the establishment. Gifu International Speech Contest in Japanese, one of main activities of the council, was held 12 times in the past.

The meeting began with an opening speech from Gifu University President Hisataka Moriwaki who became a chairman of the council this year, and Mr. Masami Watanabe, Manager of Student Support and Exchange Division, Higher Education Bureau, Ministry of Education, Culture, Sports, Science and Technology, spoke about the current situation surrounding education policies of international students. In the meeting, the council made a decision to hold the 13<sup>th</sup> Gifu International Speech Contest in Japanese this November. Each member institution of the council introduced their activities related to international student support and exchanged opinions about issues such as career options for international students. Gifu City Shopping District Promotion Associations also informed council members about coming international exchange events in Gifu City. "Flag Art Exhibition in Gifu" is one of those events take place near JR Gifu Station every year. International Exchange Division of Flag Art Exhibition in Gifu received some inquiries from international students who got interested in joining the event.

This is the 25<sup>th</sup> year since Gifu Regional Council for Foreign Student Exchange Promotion was established, and the circumstances surrounding international students in Gifu have been changing. The council members agreed that they will continue to promote meaningful activities to international students and Gifu area while responding to changes in the times.

A speech from President Moriwaki

Mr. Watanabe, Manager of Student Support and Exchange Division (MEXT), speaks at the meeting

A seminar "Ayurveda practice you can bring in campus life"

Gifu University Health Administration Center held the first faculty development seminar for 2014, "Ayurveda practice you can bring in campus life", and Mr. Sudhir Tiwari, a Canadian from Indian descent, spoke as a guest lecturer on Wednesday, June 11.

Roughly 50 people including Gifu University students, student counselors, campus life helpers, a mentor to the Office for the Promotion of Gender Equality (senior researcher) and students from other universities attended the event.

Mr. Tiwari spoke about how stress affects human body and explained that learning an Ayurveda and yoga breathing technique from the perspective of Indian preventive medicine helps to maintain a peaceful state of mind, control internal body functions, stay positive and get rid of stress. All participants tried yoga breathing during the event, and it was a great experience for students, faculty and staff members.

Mr. Tiwari speaks at Gifu University

Workshop for student counseling (Faculty Development/Staff Development)

As part of faculty and staff development, the first workshop for student counseling in 2014 was held on Monday, June 16. In the workshop, a psychiatrist and Associate Professor of Health Administration Center, Akihiro Nishio and a clinical psychologist and Assistant Professor of Health Administration Center, Ryo Horita delivered a lecture.

About 50 people including Gifu University student counselors, campus life helpers, harassment counselors, a mentor to the Gender Equality Promotion Office (senior researcher), and faculty and staff members of International Student Center were present at the workshop.

Associate Professor Nishio gave a lecture titled "Mental Health Issues University Students Have", and spoke about common mental issues or mental illness in university students and how to deal with the issue from the perspective from a psychiatrist.

In the workshop, Assistant Professor Horita also delivered a lecture on a subject, "Eyes and Ears Necessary for Student Support, Eyes and Ears Necessary for Suicide Prevention" from the perspective of clinical psychology, and spoke about how faculty and staff members can provide counseling services, intervene issues, and how we keep an eye out for signs of the cue for support.

The lecturers discussed a specific case and explained the appropriate way to handle the issue. The participants learned how we support students as a counselor through this workshop and it was a great success.

Associate Prof. Nishio speaks at the workshop

Delegation of the Sub-Committee on Energy and Environmental Security (STCEES) and the Sub-Committee on Transatlantic Economic Relations (ESCTER) of the NATO Parliamentary Assembly (NATO PA) visited Gifu University

A total of 31 delegation members of the Sub-Committee on Energy and Environmental Security (STCEES) and the Sub-Committee on Transatlantic Economic Relations (ESCTER) of the NATO Parliamentary Assembly (NATO PA) visited the Gifu University Hospital on Thursday June 19th.

Their visit to Gifu University was requested by the NATO PA as part of delegation's visit to Japan and Gifu University heartily welcomed the delegation at the Gifu University Hospital.

In the meeting at the Hospital, Dr. Hisataka Moriwaki, President of Gifu University made a welcome address, followed by a gift presentation by Dr. Fumiaki Suzuki, Executive Director for International Affairs and Public Relations. Dr. Suzuki detailed many unique properties of the gifts, which are locally produced by using the world's most advanced technologies and techniques. The gifts were later presented to each one of the delegation members.

Global Emergency Medical Supporting Intelligence Transport System (GEMITS) led by Dr. Shinji Ogura, Director of the Gifu University Hospital, was presented with the help of Mr. Naoki Matsumaru, Engineer of the Center for Clinical Training and Career Development (CCT) of the Gifu University Hospital. The main aim of this project is to transport essential patient information from "pre-hospital," within a hospital, among hospitals, and to "post-hospital" in emergency medicine under the motto, "Right patient to the right hospital in the right time." In the meeting, a connection to the Takayama Red Cross Hospital (about 134km away from Gifu University) was established via the Internet. An interactive "Web Conference" demonstration was performed by projecting X-ray images of a mock patient on the screen. This "Web Conference" system is one of the feature functions of GEMITS. In order to give a geographical sense to the delegation, the route "Gifu City - Takayama City" was compared with "Brussels, Belgium - Utrecht, the Netherlands". After the meeting, Dr. Ogura escorted the delegation to the Heliport located near the same hospital buildings, and briefed them on the operations of "Doctor Heli" (helicopter emergency service) that the Gifu University Hospital offers to emergency patients.

The delegation showed a great interest in both GEMITS and "Doctor Heli" services and spent much time making questions to Dr. Ogura about these state-of-the-art medical technologies and services of the Gifu University Hospital.

Mr. Menno Knip, Chairperson of ESCTER (fourth from the left at the front row) Mr. Jan Arild Ellingsen, Chairperson of STCEES (fifth from the left at the front row) Dr. Hisataka Moriwaki, President of Gifu University Dr. Fumiaki Suzuki, Executive Director of Gifu University

Dr. Shinji Ogura, Director of the Gifu University Hospital takes questions from the delegation

A special lecture "How to select an employer and career formation –Looking at the issue of sweatshop–"

As part of Career-Formation Support Center faculty development, a special lecture titled "How to select an employer and career formation –Looking at the issue of sweatshop–" was delivered for faculty and staff members on Wednesday, June 25. The lecture was also open to students who started their job search or got interested in the subject, about 60 people including faculty, staff members and students attended.

We had a guest lecturer, Professor Mitsuko Uenishi from Faculty of Lifelong Learning and Career Studies, Hosei University. Prof. Uenichi published "How to recognize a sweatshop" on the Web last year. In the lecture, Prof. Uenishi explained how to use and take in job information by representing a few examples such as information from company homepage on internet and "Shushoku Shikihou" or other job information magazines. She mentioned that we will get to recognize which one is a sweatshop if we check job information through internet or media daily, and we also need to be careful about the one only shows a good side of the company and does not release any negative information.

In Q&A session after the lecture, faculty, staff members and students asked lots of questions such as "How do we know which one is a blue-chip company?", "What is the difference between forced to work overtime and working overtime voluntarily?", and "Is the company labeled as sweatshop if only some departments are exploiters and not the whole company?" This two-hour long special lecture was a great success.

Prof. Uenishi delivers a lecture

Delegation of 27 Vietnamese University students visited the Faculty of Engineering, Gifu University

27 delegates from Vietnamese universities visited the Faculty of Engineering, Gifu University on Friday, 27th June. The Vietnamese delegation visit was coordinated by Gifu University Office for Academic Globalization and the Faculty of Engineering. This visit is part of the youth exchange project "JENESYS2.0 (Japan-East Asia Network of Exchange for Students and Youths)" by the Ministry of Foreign Affairs of Japan. The "JENESYS2.0" is aimed at the rejuvenating the Japanese economy by promoting potential interests towards Japan, increasing visitors to Japan, and at the same time, promoting global understanding on Japan's strengths such as science and manufacturing technology, historical attractions, beautiful nature, products "made in Japan" as well as Japanese values.

The two groups of delegates (each group has 27 people) visited companies, local government, schools, historical architectures, and beautiful spots in Gifu Prefecture during their stay from Thursday, 26th June to Sunday, 29th June. While the Vietnamese university students saw science and technology as well as manufacturing technology in Gifu through the interaction with local residents, they enjoyed the beauty of nature and learned some of traditional culture and history of Gifu. Staff from "Gifu World Youth" who were the attendants of one delegation group also visited the Faculty of Engineering, Gifu University as part of exchange. The "Gifu World Youth" is an organization aiming at international youth exchange for promoting mutual understanding and globalization. The director of the "Gifu World Youth", Hideki Mori, is the former president of Gifu University.

Mr. Ryosei Kawaguchi, Mr. Shuji Takaya, and Mr. Ren Ito, all 4th year students of Department of Mechanical and Systems Engineering, led the meeting with the Vietnamese delegation on 27th June. Dr. Keitetsu Rokugo, Dean of Faculty of Engineering, introduced the faculty including the subjects of international exchange and research contents following the speech from one of the Vietnamese delegates.

The delegation went on a facility tour to the Center for Advanced Die Engineering and Technology, and the Mechanical Systems Experiment Building afterwards. At the Center for Advanced Die Engineering and Technology, Associate Prof. Makoto Niikawa of Mechanical Engineering Course in the Department of Mechanical Engineering, gave an explanation of the facility and its equipment. Vietnamese students were impressed with the advanced equipment used in the course which covers from die designing and manufacturing to production, and many questions were asked by ardent Vietnamese students. During the tour of the Mechanical Systems Experiment Building, Associate Prof. Satoshi Kikuchi of Mechanical Engineering Course in Department of Mechanical Engineering, spoke about fluid engineering research. Vietnamese students asked lots of questions about the experiment devices and advanced research such as flow control using plasma, and wind tunnel experiment of aerotrain which applies a wing-in-ground effect.

Following the facility tour, an exchange meeting between Vietnamese and Gifu University students was held. A Vietnamese student studying at Faculty of Engineering, Gifu University, Mr. Nguyen Duy Hieu (1st year in Mechanical and Systems Engineering Division) made a presentation about his student life in Japan. Later in the meeting, 22 Vietnamese and Japanese undergraduate/graduate students had a group discussion on impressions about Japan and Vietnam as well as their interest using mainly English. Japanese students showed how to make a paper crane (Origami) to Vietnamese students. It was a great opportunity for Gifu University students to deepen the knowledge about Vietnamese culture and student life in Vietnam. It was also a memorable event for the Vietnamese students studying at Gifu University. At the end of the meeting, a speech from the Vietnamese delegation was delivered expressing their appreciation, and a gift was handed from a Vietnamese student to Dr. Keitetsu Rokugo, Dean of Faculty of Engineering.

A lunch party started with the toast in Vietnamese style, saying "Yo" ("Cheers" in Vietnamese). The Vietnamese students surprised Gifu University students by performing a dance in the middle of the party. We wrapped up the party with a speech from Prof. Yoshihiko Uematsu of Mechanical Engineering Course in Department of Mechanical Engineering.

Although the visit of the delegation was short, it was a great success as it deepened mutual understanding and exchange between Vietnamese students and Gifu University students.

Prof. Fumiaki Suzuki, Executive Director and Prof. Hiroyuki Koyama, Advisor to the President of Gifu University visited University of Dhaka

Prof. Fumiaki Suzuki, Executive Director (International Affairs and Public Relations) and Prof. Hiroyuki Koyama, Advisor to the President of Gifu University visited University of Dhaka, one of Gifu University's sister universities, on Saturday, 28th and Sunday 29th June. The followings are the details of their visit:

1) Gifu University Delegation's Courtesy Meeting with Vice-Chancellor of University of Dhaka

Prof. Fumiaki Suzuki, Executive Director of Gifu University and Prof. Hiroyuki Koyama, Advisor to the president of Gifu University made a courtesy visit to Prof. A A M S Arefin Siddique, Vice-Chancellor of University of Dhaka, and exchanged opinions with him in the presence of Prof. Shahid Akhtar Hossain, Pro Vice-Chancellor (Administration) of University of Dhaka, Assoc. Prof. Akio Ebihara and Assoc. Prof. Satoshi Iwamoto of the Faculty of Applied Biological Sciences of Gifu University and other attendees. The two associate professors from Gifu University arrived at University of Dhaka days before this courtesy meeting. University of Dhaka has concluded many sister university agreements with overseas universities and research institutes, but most of them are mainly focusing on research and academic exchanges among scholars. As Gifu University is a sole institution that University of Dhaka conducts both researcher and student exchanges with, all the participants of the meeting reconfirmed the importance of joint, cooperative education system initiated by the two universities.

From left at the front row: Prof. S.A. Hossain, Pro Vice-Chancellor of University of Dhaka, Prof. A.A.M.S.A. Siddique, Vice-Chancellor of University of Dhaka, Prof. Fumiaki Suzuki, Executive Director of Gifu University, Prof. Hiroyuki Koyama, Advisor to the President of Gifu University

From left at the second row: Mr. Hirokazu Tanaka, Engineer of Gifu University, Assoc. Prof. Akio Ebihara of Gifu University, Assoc. Prof. Satoshi Iwamaoto of Gifu University, Prof. A.H.M. Nurun Nabi of Dhaka University, Prof. M. Imdadul Hoque of Dhaka University, Prof. Haseena Khan, Chairman of Dhaka University

## 2) Appointment of Prof. A.H.M. Nurun Nabi to be Gifu University Visiting Professor for Operations of Gifu University Dhaka Office

Prof. A.H.M. Nurun Nabi is officially appointed to be Gifu University Visiting Professor and becomes responsible for operating Gifu University Dhaka Office. He graduated from the United Graduate School of Agricultural Science (UGSAS) of Gifu University and is currently teaching at University of Dhaka.

From left: Prof. A.H.M.N. Nabi (newly appointed as Gifu University's Visiting Professor), Prof. A.A.M.S.A. Siddique, Vice-Chancellor of University of Dhaka, Prof. F. Suzuki, Executive Director, Vice-President of Gifu University

3) Renewal of the Memorandum of Understanding (MoU) between University of Dhaka

#### and Gifu University

University of Dhaka and Gifu University concluded the Memorandum of Understanding (MoU) in 2004 and active exchanges among researchers and students between the two institutions have been thriving ever since. The MoU renews every five years and the year 2014 falls on the year for renewal. Prof. F. Suzuki and the Gifu University Delegation are cordially invited to attend the MoU Renewal Ceremony held at the Vice-Chancellor's office on Sunday, 29th June, 2014. Prof. F. Suzuki and Prof. Md. Kamal Uddin, Treasurer of University of Dhaka signed their signatures on the MoU.

Shaking hands between Prof. F. Suzuki and Prof. K. Uddin in the presence of Vice-Chancellor of University of Dhaka and other attendees

#### 4) Opening Ceremony of Gifu University Dhaka Office

Gifu University Dhaka Office was established in August 2009 within the office building in Dhaka. In July 2013, the office was relocated to University of Dhaka, but the

University is kind enough to arrange the official opening ceremony for the Gifu University Delegation. Gifu University Dhaka Office is a sole Japanese University overseas office in Bangladesh (excluding Japanese university research facilities) and is becoming a symbol of long-term friendship between University of Dhaka and Gifu University.

Gifu University Dhaka Office Opening Ceremony

From left: Prof. M.I. Hoque of University of Dhaka, Prof. S.A. Hossain, Pro Vice-Chancellor of University of Dhaka, Prof. F. Suzuki, Executive Director, Vice-President of Gifu University, Prof. A.A.M.S.A. Siddique, Vice-Chancellor of University of Dhaka, Prof. H. Khan, Chairman of University of Dhaka, Prof. H. Koyama, Advisor to the President Gifu University had a meeting with Gifu upper secondary school principals

Gifu University had a meeting with 17 Gifu prefectural upper secondary school principals on Tuesday, July 1. Gifu University has held this meeting to exchange opinions with principals of upper secondary schools in Gifu regarding educational issues and collaboration between upper secondary schools and Gifu University since 2006. The attendees of Gifu University include President and Executive Directors.

After a brief address from Gifu University President Hisataka Moriwaki and Mr. Niwa, Director of the Gifu Upper Secondary School Principals Association, President Moriwaki delivered a speech about "Current Status and Educational Principles of Gifu University". Dr. Satoshi Ema, Executive Director of Gifu University, also explained about both educational and student life support, which Gifu University provides from the admission to graduation, through introduction of Organization for Promotion of Higher Education and Student Support that was launched last year. At a Q&A session, the attendees exchanged their opinions about a wide range of subjects such as introduction of achievement test, entrance exam system, and graduates' career path in each faculty.

After the meeting, the attendees visited the laboratory of Professor Haruhisa Kawasaki and Associate Professor Tetsuya Mouri whose field of research is intelligent mechanical engineering and toured Learning Commons which was added to the University Library after extension and renovation work.

President Moriwaki speaks at the meeting

The attendees exchange their opinions

#### Reopening of Gifu University Library after extension and renovation work

A ceremony to celebrate reopening of Gifu University Library was held on Tuesday, July 1, following the completion of extension and renovation work started from last year.

At the ceremony, Gifu University President Hisataka Moriwaki and Hideto Fukushi, Director of the University Library delivered a speech. After Mr. Naoya Iwamoto, a student of Graduate School of Engineering, made a brief address on behalf of university students, Harushige Kimura, Associate Director of the University Library, provided a briefing on the event and did ribbon-cutting.

This extension and renovation work contributed to enhancement of student support function and expansion of collection holding capacity. We use the extension area on the 2<sup>nd</sup> floor as Learning Commons, and a large reading area where students can bring many materials and laptops for their study is available on the 3<sup>rd</sup> floor of the library. Stack rooms for storing about 400,000 library collections were also added to each floor. Celebrating library reopening, library special collections including the collection of Webster's English Dictionaries and a rare illustrated book of "Koshikifu" went on display until 10<sup>th</sup>.

After the ceremony, the ceremony attendees toured the library and walked into renovated browsing section and Learning Commons which was newly added. We received good responses from the attendees after the tour such as "We would definitely like to encourage students to use the library."

## **Recipients of Awards**

# Journal of the Chemical Society of Japan "Bulletin of the Chemical Society of Japan Volume 87, Number 6, 2014" Selected Papers in this issue

The recipient of awards: Professor Toshiaki Murai of Faculty of Engineering Title of Dissertation: Aromatic Selenoic, Selenothioic, and Diselenoic Acid Salts: Isolation, Characterization, and 77Se NMR Spectra, Together with Theoretical Elucidation Date Awarded: April 8, 2014

## The Japan Society for Technology of Plasticity, JSTP Medal

The recipient of awards: Professor Wang Zhigang of Faculty of Engineering Title of Dissertation: Cold Forging Lubrication Using Parker Ultimate Lubrication System (PULS) Date Awarded: June 6, 2014

## Japan Society of Civil Engineers, Best Paper Award 2013

The recipients of awards: Professor Yusuke Honjo of Faculty of Engineering, Specially-Appointed Assistant Professor Yu Otake of Faculty of Engineering Title of Dissertation: A Simplified Scheme to Evaluate Spatial Variability and Statistical Estimation Error of Local Average of Geotechnical Parameters in Reliability Analysis Date Awarded: June 13, 2014

# Japan Society of Civil Engineers, Historical Studies in Civil Engineering Best Presentation Award 2014

The recipient of awards: Associate Professor Yoshifumi Demura of Faculty of Engineering Achievement: Delivered a presentation on his research results in an understandable way Date Awarded: June 22, 2014

## Accepted a statue from Polish Association of Sanitary Engineers and Technicians

The recipient of awards: Professor Kazuhiro Takamizawa of Faculty of Applied Biological Sciences

Achievement: Received a statue from Polish Association of Sanitary Engineers and Technicians, expressing gratitude for his significant contribution to international reputation of an International Scientific and Technical Conference "Water Supply and Water Quality" Date Awarded: June 23, 2014
