

August 10, 2022

To advisors and members of GU student clubs/circles

YAMADA Toshihiro
Vice President (Academic Affairs and Student Support)
Director-General
Organization for Promotion of Higher Education and Student Support

Subject: Extracurricular Activity Policy
in time of Students/Staff Tested Positive (from August 10, 2022)

We issued a notice, “Extracurricular Activity Policy in time of Resurgence of Infection” on July 21, 2022, but since the way of reporting to Gifu University by students/staff tested positive or becoming a close contact has changed, please pay attentions to our new extracurricular activity policy (1-4) below:

1. Students/staff who tested positive or have become a close contact, are asked to answer the questions in *Gifu University Input form for people tested positive/became close contacts* (need to scan QR code below), and not to take part in club/circle activities. While engaging in club/circle activities, if you spent time with others in close proximity two days before you started to exhibit symptoms, please notify the fact by the *Input form*. All information entered in the *form* is shared with club/circle leaders, too (Definition of a close contact: stay close with an infected individual for more than 15 minutes without wearing a mask).
2. Club/circle leaders or advisors must suspend all activities if the members are suspected to have become a close contact, and they need to compile information of all close contacts including temperatures, symptoms, etc. from the day of students/staff tested positive through the end of close contact’s self-isolation period every day. Club/circle leaders also need to ask a close contact to answer the *form*. *No need to suspend activities if no one has become a close contact within club/circle.
3. Period of activity suspension lasts till the end of close contact’s self-isolation period at home. *Close contact’s period of self-isolation at home: 5 days from the following day of the last meeting with an infected individual (7 days for a medical student).
4. Asymptomatic students (excluding those who need to self-isolate at home) can participate in competitions/matches or tournaments only when they can obtain approval from event organizers.

Gifu University Input form for people tested positive/became close contacts

Students/staff tested positive or becoming a close contact are also asked to report to Student Affairs Section of your faculty/school.

If you do not feel well (high fever, fatigue, coughing, sore throat, etc.), please go to see a doctor and stay at home.
