

Flow Chart

Steps to be taken against COVID-19 (December 29, 2021 – January 3, 2022)

[Points of Attention in Daily Life]

***Please follow the instructions below even if you are fully vaccinated.**

- Please take body temperature in the morning before leaving home to attend classes. If you have high fevers or cold-like symptoms, etc. please contact the Health Administration Center and student affairs office of your faculty/school/center, etc. and stay at home.
- Wear a mask when going out and minimize conversations while using public transportation (trains, busses, etc.)
- Please use hand sanitizer and wash hands carefully at bathroom, and particularly before meals.
- Keep record of your body temperatures, physical conditions and daily activities.
- Please keep distance from others, wear a mask and minimize conversations during meals. Please refrain from dining out in a large group and avoid the "Three Cs."
- Please exercise self-restraint for non-essential outings to any afflicted regions and follow the Japanese government instructions (access "MOFA's Travel Advice and Warning on Infectious Diseases") if you are planning to travel abroad.

- Shortness of breath (difficulty of breathing), strong fatigue, or high fevers, etc.
- Have underlying conditions, high fevers, coughing and other mild cold-like symptoms.
- Mild cold-like symptoms such as high fevers, coughing, etc. continue.

Contact Public Health Center in your community or go to the hospital/clinic

No PCR testing

PCR Testing

Negative

PCR Testing

PCR Testing Result

Positive

Please send an email to gukansen@ml.gifu-u.ac.jp including the following information.

1. Name
 2. Faculty/School/Center (student ID number, course, year)
 3. Contact (telephone number)
 4. Instructions from public health center
 5. Date of PCR testing results are announced
 6. Infection routes
 7. With or without persons you had close contact with on campus
- ※Depending on the degree of emergency, Gifu University will respond to your email. If you receive no response, please follow instructions from a public health center (no need to contact the Health Administration Center from January 4, 2022 onward).

Please report the testing result to Health Administration Center from January 4, 2022 onward. Tel: 058-293-2174 (weekday 8:30~17:00)
