

Change in how to report by members* of Gifu University when tested positive or became close contacts of COVID-19 (from August 10, 2022)

*Members: students (including research students), academic and administrative staff

**Tested
Positive
or
Close
Contact**

Change in reporting from emails and calls to filling in and send an input form!

- If you are tested positive or became a close contact of COVID-19, please access the following URL or scan QR code and fill in the form. **This form is accessible around the clock regardless of the University's off-duty hours, weekends, or holidays.**
- If you are tested positive after your reporting to the University as close contact via form, you are required to resubmit a form with new information.
- If you are students and are tested positive, you are asked to contact the student affairs section of your faculty, school, etc. and your supervisors. Academic and administrative staff are asked to contact the general affairs section of the division you belong to.

Input form for people tested positive / became close contacts

<https://forms.office.com/r/0BbKRFmZA7>

Input form is accessible from "Important News" of Gifu University website, Health Administration Center website and Campus-G.

*Depending on the situations, Health Administration Center may contact you.
